Cutting Edge Research and Technology Development

In the field of

Nano – Technology in Manufacturing, 15-17 October 2014 Ozyegin University, Istanbul

Content

In this seminar serie, renowned German and Turkish scientists working in different fields of Nanotechnology meets with the researchers in academics and industry. This activity is aiming at fostering the future scientific collaboration between two nations in the German-Turkish year of research, education and innovation.

Lecturers

Prof. Dr. Dr. Holger Schonherr, University of Siegen, Physical Chemistry

Prof. Dr. Ulrich Jonas, University of Siegen, Macromolecular Chemistry

Prof. Dr. Dirk Kuckling, University of Paderborn, Organic and Macromolecular Chemistry

Prof. Dr. M.Pinar Menguc, Ozyegin University, Mechanical Engineering and Center of Energy, Environment and Economy

Assoc. Prof. Dr. G.Bahar Basim, Ozyegin University, Mechanical Engineering

Assoc. Prof. Dr. Berrin Erdag, TUBITAK-MAM

Assoc. Prof. Dr. Goksenin Yaralioglu, Ozyegin University, Electrical & Electronics Engineering

Assoc. Prof. Dr. Ismet Inonu Kaya, Sabanci University, Natural Sciences

Assoc. Prof. Dr. A. Sanli Ergun, TOBB University, Electrical & Electronics Engineering

Assist. Prof. Dr. Zeynep Basaran, Ozyegin University, Civil Engineering

Assist. Prof. Dr. Sedat Nizamoglu, Ozyegin University, Electrical & Electronics Engineering

Assist. Prof. Dr. Bekir Y. Pekmezci, Istanbul Technical University, Civil Engineering

Assist. Prof. Dr. Bengi Kutlu, Prof. Dokuz Eylul University, Textile Engineering

Assist. Prof. Dr. Gokhan Erkan, Dokuz Eylul University, Textile Engineering

Dr. Volkan Ozguz, Director of the Nanotechnology Research and Application Center at Sabanci University

Dr. Cenk Aktas, Functional Nano/Bio Surfaces, Head, CVD/Biosurfaces Leibniz-Institut für Neue Materialien GmbH

Dr. Burcu Saner Okan, Sabanci University Nanotechnology Research and Application Center and Co-founder of NANOGRAFEN LTD

M.Sc. Katrin-Stephanie Tücking, University of Siegen, Physical Chemistry

M.Sc. Ayse Karagoz, Ozyegin University, Mechanical Engineering

M.Sc. Zeynep Ozdemir, Ozyegin University, Mechanical Engineering

B.Sc. Wazir Akbar, Ozyegin University, Mechanical Engineering

Industrial Participants

Dr. Max Siebert, Lab Team Leader, Formulation Platform (GVM/F), BASF

Dr. Peter Leunissen, Team Leader, Electronic Materials Development, BASF

Dr. Hakan Atasay, MicroResist GmbH

Gokmen Ukelge, Kivanc Textile Company, Adana, Turkey

Scientific Committee

Prof. Dr. M. Pinar Menguc Prof. Dr. Holger Schonherr Assoc. Prof. Dr. G. Bahar Basim

Organization Committee

Assoc. Prof. Dr. G. Bahar Basim Assoc. Prof. Dr. Goksenin Yaralioglu Assist. Prof. Dr. Zeynep Basaran

Registration

The seminar is **free of charge**. Nevertheless, the participants should register by sending an e-mail to nim.registration@ozyegin.edu.tr

There will be **travel support** for limited amount of students and researchers working in the Turkish universities out of İstanbul. More details of the event can be found at

www.ozyegin.edu.tr/Nano-in-Manufacturing
