

## Joint Physical Chemistry & Cμ Colloquium - WS 2019 / 2020

**Mondays, AR-F002, start: 16:30**

November 11<sup>th</sup> 2019, **Dr. Nianjun Yang**, *“Advanced Energy Materials: Design and Performance”*  
University of Siegen, Department of Mechanical Engineering

November 25<sup>th</sup> 2019, **Dr. Daria Berdnikova**, *“Light-controllable interactions with nucleic acids: new perspectives for chemistry, biology and medicine”*  
University of Siegen, Department of Chemistry - Biology

January 6<sup>th</sup> 2020 - **Dr. Assegid Flatae** - *“Plasmon-assisted ultrafast photodynamics in quantum dots”*

University of Siegen, Department of Physics

January 13<sup>th</sup> 2020 - **Dr.-Ing. Julian Müller** - *“Enabling Novel Applications of 2D Materials via Nanoscopy”*

University of Siegen, Department of Mechanical Engineering

January 27<sup>th</sup> 2020 - **Dr. Anna Katharina Wigger**, *“Terahertz nanoscopic recognition of single bacteria”*

University of Siegen, Department of Electrical Engineering and Computer Science

**New date:**

February 10<sup>th</sup> 2020 - **Dr. Mareike Müller**, *“Revealing Bacterial Biofilm: Biofilm modulation and Monitoring via Signaling molecules”*

University of Siegen, Department of Chemistry - Biology
