

Important information and deadlines valid in the winter term 2025/2026

All academic achievements: examinations, exercises, presentations, laboratory courses etc. excluding third attempts, theses and research projects should be registered through unisono!

The registrations for exams or other academic achievements should be done separately from the registrations for the respective lectures / tutorials. It means that a registration for a lecture or a tutorial is not a requirement or a registration for an exam or a tutorial.

Registered courseworks (for example exercises, presentation, laboratory courses etc.), which shall not take place / shall not be done in the current semester, should be deregistered through unisono until the end of the current semester. The registrations shall not be transferred into the next semester and thus registration in the new semester shall not be possible!

According to the examination regulations as of 2024 (Fachprüfungsordnung Master Chemistry):

After uninterrupted participation in the degree program, a failed written or oral examination for a module shall be considered not taken (free attempt) upon a request to the examination office, if the module was completed before or during the semester to which it is assigned according to the degree plan for the master's degree program and the examination was held in the first examination period of the respective semester and was not repeated according to §12 (5) of the RPO-M.

Improvements should be done during the second examination period of the same semester, that is directly after the passed free attempt. These attempts should be registered through the examination office within the respective registration deadlines.

The first examination period starts on February, 9th and ends on February, 20th 2026.

Registration through unisono for this period starts on January, 19th and ends on February, 2nd 2026 (11:59 p.m.).

The second examination period starts on March, 16th and ends on March, 27th 2026.

Registration through unisono for this period starts on February, 23rd and ends on March, 9th 2026 (11:59 p.m.).

Registration of courseworks: exercises, protocols, presentation and laboratory courses should be done through unisono from October, 1st until February, 22nd 2026.

Should you face problems while signing in for the exams please contact the examination office immediately (**however, on the next working day after the end of the relevant registration period at the latest!**). Screenshots of error messages or disorders might be helpful.

Regular withdrawal should be done through unisono **seven** days prior to the examination date. Unisono system calculates the exact time depending on the beginning of the respective examination.

Withdrawal in case of serious reasons (for example due to a sickness) should be done through the examination office immediately (however, within 3 working days after the examination date at the latest!).
